Mamo TCV Advocates:
Internship Opportunities for University Students

About Us

Mamo TCV Advocates is one of Malta's leading law firms, with a high level of depth and expertise across numerous practice areas particularly in the areas of corporate and commercial law. The firm consists of a dedicated team of over fifty lawyers and professionals from other disciplines. For the past years Mamo TCV has been top ranked by various agencies such as Chambers Global, Chambers Europe, Legal 500, IFLR 1000 and Martindale-Hubell.

Over the years we have built strong relationships with our clients and we remain committed to supporting them at all times as they face complex business and legal issues and seek to adapt to changing markets and regulatory landscapes. Our broad areas of expertise, client relationships, sector-specific knowledge and expertise together with the quality of our people make us a unique proposition to clients. This strong reputation of excellence has led to our involvement in numerous complex and ground-breaking transactions, also making us the Maltese firm of choice for many international law firms.

Mamo TCV Advocates is always on the look out for dedicated students to join its ranks. Over the years the firm has provided a number of students with the chance to gain practical experience within the its departments, with a selected number progressing in their career and taking on a full-time position with the firm.

The Internship Programme

Mamo TCV Advocates is seeking to recruit university students for a summer internship programme at the firm, across all its areas of practice. The programme is designed to give students practical, hands-on experience by working within a leading law firm with experts in various fields. This is intended to help interns prepare for their future careers in their chosen area of specialisation.

Interested candidates are encouraged to indicate their preferred areas of practice by selecting at least three departments listed in the application form. The chosen applicants will be involved in projects that will expose them to the chosen area of practice in a working environment, drawing on the technical and professional support and guidance of the partners and associates within the respective departments.

Following the summer period and the relative evaluations, certain students may be asked to continue with the internship during the winter months.
